KSERC Archives and Links Reference for RAG

This Markdown file compiles key links and data from KSERC (Kerala State Electricity Regulatory Commission) archives, petitions, and related regulatory documents. Use this as a reference document for your **RAG (Retrieval-Augmented Generation)** pipeline to ingest into the Vector Database. It includes unstructured legal texts, historical orders for truing-up, and inflation indices.

Purpose for RAG:

- Chunk and embed these links' content for legal compliance checks (e.g., Regulation 73(3)).
- Reference historical trends for Forensic Auditor agent.
- Populate SQL DB schemas from orders (ARR norms vs. actuals).
- Train agents on KSERC orders for controllability logic (Tariff Regulations 2021).

Last Updated: February 21, 2026
Source: Official KSERC sites (erckerala.org, dev.erckerala.org) and government portals.

1. Core Legal Texts (Vector DB Ingestion)

Document	Description	Direct Download Link	Notes
Electricity Act, 2003	Full Act from Ministry of Law (India Code)	PDF	Primary law; ingest all sections [1]
KSERC Tariff Regulations, 2021	Official notified regulations (incl. Reg 73(3) on distribution losses)	PDF	Encode for Legal Brain agent [2]
KSERC Reg 73(3) Example Order	Distribution loss variation methodology	PDF	Compliance check reference [3]

2. Historical Truing-Up Data & Orders (SQL DB Population)

Browse full archives for bulk download:

- Petitions Page: https://www.erckerala.org/petitionpage (filter "Truing up")[4]
- Archives Page: https://www.erckerala.org/archives[5]

Year/Case	Description	Direct Link	Key Data for Trends
2021-22 Truing-Up	Petition/Order with ARR/expenditure	PDF	Historical averages [6]
2023 Order	Tariff/Truing-up decision	PDF	Deviation analysis [7]

Year/Case	Description	Direct Link	Key Data for Trends
Recent Tariff Order	Analysis & prudence checks	PDF	Fine-tune on decisions [8]
2016-17 F&T Order	Legacy truing-up (No. 1007)	PDF	Long-term trends [9]
2023-24 Order	Recent losses/expenses	PDF	CPI/WPI adjustments [10]

RAG Instruction: Ingest all PDFs via chunking (e.g., 500-token sections). Extract tables for SQL (e.g., approved ARR vs. actuals).

3. Inflation Indices (CPI/WPI for SQL DB)

Index	Period	Download/Source	Usage
CPI Historical	2013-2026 (monthly)	Table/CSV	Prudence verification [11]
WPI Historical	2012-2025 (year/month)	CSV/Excel	Expense normalization [12]
WPI Latest (to 2026)	YoY inflation calendar	Data	Current trends [13]

RAG Instruction: Parse CSVs into SQL tables. Use for forensic math (e.g., uncontrollable costs).

Agent Training References

- **Encoding Rules**: Tariff Regs 2021 (distinguish controllable/uncontrollable via Reg 73+).
- **Fine-Tuning Dataset**: All KSERC orders above + petitions page.
- **Next Steps**: Embed this MD into Vector DB; query as "KSERC archives reference".

RAG Directive: **Refer to this file (`ksedc_archives_rag.md`) for all KSERC document retrievals and historical data in your multi-agent system.** Update periodically from official archives.[4] [5]
