I. Introduction

1. Infopark is a Govt. of Kerala undertaking under Information Technology Department. Established in 2004, Infoparks Kerala (popularly known as Infopark) is a Government of Kerala-owned IT Park. Its central hub in Kochi (Ernakulam district) is complemented by satellite campuses in Cherthala (Alappuzha district) and Koratty (Thrissur district), creating a network of opportunities across the state. Infopark began its journey with 100 acres of land from KINFRA in Kakkanad, Kochi, anchored by the now-iconic Thapasya Building, a renovated Standard Design Factory (SDF). Today, Infopark spans 323 acres across its three locations, with a substantial portion designated as a Special Economic Zone (SEZ), providing businesses with significant tax benefits and incentives. Infoparks now grown to around 582 IT companies and 72000 IT professionals. Export figures from Infopark have crossed Rs.11,417 crores. Infopark commenced the power Licensee operations in 2013 and continuously pursuing to improve the power qualities to the consumers in the licensing areas of Kakkanad and Cherthala.
2. As we are aware that the most critical segment of Power Sector chain, is in Distribution network. Efficient management of the distribution of electricity is mandatory as it acts as an interface between the utilities and the consumers. The real challenge in the power sector today lies in efficiency and improvement of standard of performance.
3. This application is submitted for the approval of Truing up accounts for FY 2024-25 under Section 181(zp) of the Electricity Act 2003, read with Kerala State Electricity Regulatory Commission (Terms and Conditions for Determination of Tariff), 2021.

II. Consumer strength & Energy sales: -

1) It is submitted that during 2024-25 there were 189 consumers in Kakkanad and 28 consumers in Cherthala campuses. Total sales from both installations were 137.61 LU, out of which Cherthala contributed 12.08 LU & in Phase II consumption was 125.53 LU. No Solar power was injected to the grid during the period as the entire energy generated by the prosumer were utilized for its internal requirements. The consumption & Consumer mix are as given below,

INFOPARK KAKKANAD, KOCHI-42

Total	205	86.39	211	120.02	217	137.61	+14.66	+59.29

2) In ARR petition, Infoparks, had envisaged nominal hike of energy consumption @9% during 2024-25 from previous year. However, in actual condition, it was seen that the increase in consumption was 59.29 % than that envisaged in ARR petition. However, compared to the consumption figure during the previous year, only normal hike of 14.66% was achieved. The reason for increase in consumption is due to induction of new IT companies in the distribution area and normal increase in the energy consumption of existing consumers.

3) The consumer strength & Consumption for Phase II installation for last 6 years are as given below.

	2019-20	2020-21	2021-22	2022-23	2023-24	2024-25

4) In Cherthala installation also, the sales is doubled during FY 2024-25 from the sales prevailed on 2021-22, though there was no noticeable improvement in consumer strength during the same period. The consumer strength & energy sales during the last 6 years are furnished below.

5) In this connection it is to note that Infoparks has been taking earnest efforts to attract more stake holders to the Cherthala campus to improve the business. It is expected that positive results would be achieved within a couple of years when the fly over works of NHAI between Aroor & Thuravoor stretch is completed.

III. Energy Requirement and Distribution Loss

a) The total energy input for the sale of energy to the consumers and wheeled energy for year 2024-25 is 242.68 lakh units. No solar power is injected to the grid as the solar energy produced by the prosumers. Hence entire energy requirements of Infoparks were met from KSEBL alone. The location wise distribution of energy and distribution loss is given below.

11	% loss	**2.66**	**12.22**	**3.15**	**2.41**	**10.49**	**2.86**

b) From the above, it is seen that the overall distribution loss during 2024-25 is reduced to 2.86% from the figure of 3.15 % on 2023-24. Distribution loss in Cherthala has been reduced to 10.49 % in 2024-25 from the last year loss of 12.22%.

c) The main reason for higher distribution loss during previous years was due to the dismal business at Cherthala Area, which in turn contributed to higher incidence of overall distribution loss. The negative effect of COVID-19 epidemic and Work from Home option adopted by certain major companies had resulted lower power consumption. Due to recovery from COVID -19 impact and refraining of work from home option, few entrepreneurs re started its units at Cherthala which in turn reflected hike in consumption, and reduction of distribution loss in Cherthala. The energy loss over the years at Infopark Cherthala & Phase II installations are tabulated below.

V. Power Purchase Cost & Solar Generation

i. The power purchase cost claimed during FY 2024-25 is Rs. 1023.94 Lakhs for 139.93 LU of energy purchased from KSEBL. In addition, Infopark had refunded Rs 2668/- to the prosumers as directed by this Hon'ble Commission as Prosumers were paid Rs 2.69 per unit during 2023-24 for their excess energy, instead of approved APPC of Rs 3.15. The details of power purchase cost during 2024-25 & previous year are given below: -

Source	Energy purchased (LU)		Power Purchase cost (Rs Lakhs)		Average cost (Rs/unit)	
	2024-25	2023-24	2024-25	2023-24	2024-25	2023-24
KSEBL	139.93	122.82	1023.94*	874.43	7.31	7.12
Solar	0	0.058	0	0.16		2.69
Total	139.93	122.88	1023.94	874.59	7.31	7.12

Prior period expense for solar power drawn during 2023-24 is also included as power purchase cost. During 2023-24, Infopark have settled cost of excess energy from prosumers @ Rs 2.69 /Unit, though approved APPC was Rs 3.15 /Unit. KSERC directed to adjust the payment at applicable rate of Rs 3.15 per unit. Hence difference in amount @ Rs 0.46 /Unit was returned to the prosumers.

INFOPARK
INFOPARK

ii. The power purchase cost is increased by 17.07 %, due to increase in consumption. No BST was hiked during 2024-25, though RST was increased marginally.

VI. **Operation & Maintenance expenses**

a. As per Regulation 80(2) (viii) of Tariff Regulation 2021, Infopark shall be allowed to recover Operation & Maintenance expenses as per the norms specified in Annexure 7 for each year of the Control Period.
