Sir,

Sub: Petition for True-up for FY2024-25-reg.

The year-end Truing up application for the Financial Year 2024-25 as per the regulation has been prepared and submitted herewith in six copies. The fee for submitting the petition calculated as below is remitted herewith as a cheque. The component wise explanation of the expenses and income are described in the subsequent paragraphs and replies to the specific clarification points in the above letter are provided towards the end.

No.	Item	Amount (Rs)
1	Annual Revenue FY 2024-25	Rs. 7624.91 Lakhs
2	Fee for True UP Petition @0.006%	Rs. 45,750 /-

It is requested that the application be placed before the Hon'ble Commission for Formal Approval.

Thanking You.

Yours faithfully,
For Electronics Technology Parks-Kerala

Vipin Kumar S
Chief Finance Officer

BEFORE THE HONOURABLE

KERALA STATE ELECTRICITY REGULATORY COMMISSION

PETITION IN THE MATTER OF APPROVAL OF TRUING UP OF ACCOUNTS FOR FY 2024-25

SUBMITTED BY

TECHNOPARK, THIRUVANATHAPURAM

BEFORE

THE KERALA STATE ELECTRICITY REGULATORY COMMISSION

Petition No:

IN THE MATTER OF:

Petition for approval of Truing up of accounts for the FY 2024-25

Applicant:

M/s. Electronics Technology Parks – Kerala (Technopark)
Park Centre, Technopark Campus, Thiruvananthapuram - 695581

AFFIDAVIT

I, Vipin Kumar S S/o Sri. A Sadasivan Nair, aged 45 years, residing at T.C. 5/2443, PNRA-B5, Ambalamukku, Kowdiar, Thiruvananthapuram do hereby solemnly affirm and state as follows:

1. I am the Chief Finance Officer of **Electronics Technology Parks – Kerala (Technopark), Park Centre, Technopark Campus, Trivandrum** and the petitioner in the above matter and am duly authorised by **Electronics Technology Parks – Kerala (Technopark)** to make this affidavit on its behalf.

2. The statements made in the accompanying application are true to my knowledge and are derived from the official records made available to me and are based on information and advice received and I believe them to be true.

3. Solemnly affirmed that at Kazhakuttam on this day of 28/11/2025 that the contents of the petition are true to my information, knowledge and belief and no part of it is false and nothing material has been concealed there from.

Deponent

Vipin Kumar S
Chief Finance Officer, Technopark,
Park Centre, Technopark Campus,
Thiruvananthapuram – 695 581

VERIFICATION

I, the above-named deponent, solemnly affirm at Kazhakkuttam on this 28/11/2025 the contents of the above affidavit are true to my information, knowledge and belief, that no part of it is false and no material has been concealed therefrom.

Deponent

Vipin Kumar S
Chief Finance Officer, Technopark,
Park Centre, Technopark Campus,
Thiruvananthapuram – 695 581

Solemnly affirmed and signed before me.

BEFORE

THE KERALA STATE ELECTRICITY REGULATORY COMMISSION

C V Raman Pillai Road, Vellayambalam, Thiruvananthapuram.

Petition No:

IN THE MATTER OF:

Petition for Truing up of accounts for Financial Year 2024-25 of the Distribution Licensee TECHNOPARK.

Petitioner: M/s. Electronics Technology Parks – Kerala (Technopark)
Park Centre, Technopark Campus, Thiruvananthapuram - 695581

THE PETITIONER RESPECTFULLY SUBMITS THE FOLLOWING FACTS:

1. The petitioner, **Electronics Technology Parks – Kerala (Technopark)**, is a State Government owned registered society engaged in development of Technology Parks for promotion of Electronics and Information Technology business in the State of Kerala and possess Electricity Distribution Licences for supply of electricity within the Five Campuses so developed in Kazhakuttam, Kollam and Pallippuram. The petitioner licensee has been regularly submitting petitions for approval of Aggregate Revenue Requirement (ARR), Expected Revenue from Charges (ERC), Year-end Truing-Up petitions and other submissions complying the prevailing acts and regulations.

2. The petitioner had submitted the **ARR&ERC petition** for the current control period (FY 2022- FY 2027) on 11-05-2022 and revised petitions on 13-06-2023 based on the daily order dated 17-05-2023. Hon'ble commission pronounced the order **(OP 12/2023)** on 28.02.2024.

3. The petitioner had filed **the first and second truing-up petition, for FY 2022-23 & FY 2023-24, on 30-11-2023 and 30.12.2024,** in the present control period, covering FY 2023 to FY

2027. Now, this current truing-up application is submitted in respect of the truing up of accounts for the **Third Financial Year** of the current control period **2024-2025.**

SUMMARY OF TRUING-UP

4. The **Accounts of the petitioner for the Financial Year 2024-25** has been finalised and audited as per rules. This truing-up petition is prepared and submitted based on the audited accounts. Various Income and Expenses are presented in comparison with the last year audited accounts figures and corresponding figures the ARR& ERC order mentioned above. The required formats for filing truing up petition in accordance with **Hon'ble Kerala State Electricity Regulatory Commission (Terms and Conditions for Determination of Tariff) Regulations, 2021** applicable for the control period from 01-04-2023 to 31-03-2027 have been prepared and attached to this petition.

5. A summary of the actual expenses and that approved by the Hon'ble Commission along with previous year actual values are given in the Table below. Various expenses / revenue income under each head is explained in the subsequent paragraphs.

SUMMARY OF TRUING-UP FOR FY 2024-25				(Rs Lakhs)
No.	Particulars	2024-25 Audited	2024-25 Approved	2023-24 Audited
1	Cost of power purchase	6,369.16	6,367.53	5,549.13
2	Employee Expenses	60.73	29.61	60.02
3	Administrative and General Expenses	129.91	39.37	95.36
4	Repairs and Maintenance Expenses	551.17	346.28	503.62
5	Depreciation Expenses	69.89	142.60	82.38
6	Interest paid on capital loans	0.00	7.87	0.00
7	Interest paid on working capital	0.00	0.00	0.00
8	Interest paid on security deposits	134.16	89.52	123.65
9	Total Revenue Expenditure	**7,315.01**	**7,022.78**	**6,414.17**
10	Return on Equity /Net Fixed Assets	85.24	21.07	90.04
11	Aggregate Revenue Requirement	**7,400.25**	**7,043.85**	**6,504.21**
12	Less: Non-Tariff Income	158.27	155.51	148.43
13	Agg Revenue Requirement from Tariff	**7,289.39**	**6,888.34**	**6,355.78**
14	Revenue from Charges / Sale of power	7,466.64	7,337.29	6,683.88
15	Revenue Surplus / (Deficit)	**224.66**	**448.95**	**328.09**

POWER PURCHASE EXPENSES

6. Consumers and Energy Sales: During the Financial Year 2024-25, the petitioner had served a total of **1017 no's consumers** in all the five campuses of Technopark as compared to 964 no's consumers previous financial year. The total energy sold to these consumers was **80.67 MU** indicating an increase of **8.43 %** over previous year. A comparison of growth of consumers and sales with approved values (ARR&ERC Order OP-12/2023 dt:28.02.2024) for FY 2023-24 are given in the table below.

Particulars	2020-21	2021-22	2022-23	2023-24	2024-25	2024-25 Approved
HT Consumers (Nos)	22	23	23	24	26	28
LT Consumers (Nos)	835	839	910	940	991	1009
Total Consumers (Nos)	857	862	933	964	1017	1037
Energy Sales (MU)	50.54	50.08	64.33	74.40	80.67	89.28
Sales Growth (%YOY)	-42.87%	-0.9%	+28.45%	+15.65 %	+8.43 %	

7. **Revenue from Sale of Energy:** The revenue earned from sale of power for the year was **Rs.7466.64 Lakhs** for FY 2024-25, an increase of **11.71 %** over previous year. The average revenue realised per unit was **Rs.9.23.** The energy sales and the revenue data for each customer category is given in Form D-2.1. The campus wise data are also given in the same format in separate Sheets. The month wise and Campus wise sales data are given in Form D-7.1 in separate sheets. A comparison of the energy sales and per unit revenue realisation for past years and that approved are given in the table below.

Particulars	2020-21	2021-22	2022-23	2023-24	2024-25	2024-25 Approved
Revenue (Rs Lakhs)	4,260.79	4,317.28	5,750.11	6,683.88	7,466.64	7,337.29
Revenue Growth (%YOY)	-36.97%	1.33%	33.19%	16.24%	11.71%	
Per Unit Realisation (Rs)	8.43	8.62	8.93	8.96	9.23	8.22

8. **Power Purchase and Cost:** The petitioner purchase power from the State Power Utility, **KSEBL** to meet the consumer requirement. Technopark purchased **83.93 MU** of energy from KSEBL in FY 2024-25 at a total cost of **Rs.6,369.16 Lakhs,** that was 14.78% higher than previous year expense. Power purchase Cost constitutes the **largest component (87%)** of the total expenditure (without considering the returns on equity allowed). The average per unit cost of power purchase, thus, was **Rs.7.59 per unit** whereas it was **Rs. 7.19 per unit**, last year. The details of power purchase for each phase of Technopark are given in the Form D-3.1. The table below shows the comparison of power cost and the per unit rate for previous years and the ARR approved values.

Particulars	2020-21	2021-22	2022-23	2023-24	2024-25	2024-25 Approved
Energy Purchased (MU)	51.86	51.46	66.97	77.18	83.93	91.27
Purchase Cost*(Rs Lakhs)	3,511.93	3,494.83	4,652.88	5,549.13	6,369.16	6,367.53
Cost Change (%YOY)	-39.14%	-0.48%	33.13%	19.26%	14.78%	
Per Unit Cost (Rs/Unit)	6.77	6.79	6.95	7.19	7.59	7.00

9. **Solar Generation:** The petitioner has six rooftop solar plant of total capacity 355.5 kW and generated about 3.46 Lakhs units of electricity as compared to 3.81 Lakhs units in previous year.

The solar generation from these six plants and the corresponding Capacity Utilisation Factors (CUF) is given below. It may also be noted that the number of sunny days and solar irradiation can significantly affect solar generation.

Solar Generation Technopark Own Plants for FY2024-25							
No	Month	200kWp Ganga Yamuna	50kWp Pump House	25kWp Substation	35 kWp Technocity	10 kWp	15 kWp
1	Apr-24	23230	6032	3483	5100	1416	2185
2	May-24	15363	4177	2061	3763	830	1612
3	Jun-24	12790	4261	2361	3740	667	1599
4	Jul-24	17201	761	2468	3743	1000	1622
5	Aug-24	20964	1383	2924	4397	1100	1965
6	Sep-24	20109	5437	3245	4924	1101	2131
7	Oct-24	10894	4524	2737	4312	768	1802
8	Nov-24	8903	3673	2305	3625	618	1589

	Grand Total						345757
	CUF*	10.08%	11.41%	15.23%	17.24%	12.36%	16.84%
** CUF (Capacity Utilisation Factor) = Yearly Generation x 100 / (Plant Capacity x 24 x no of days)*							

OPERATION AND MAINTENANCE EXPENSES

10. The total **Operation and Maintenance Cost** during the year was **Rs.741.80 Lakhs** for the year and is the **second significant component (10%)** of the total expenses. This expense comprises of three components, namely, the cost for Repairs and Maintenance cost (R&M), Administration and General Expense (A&G) and the Employee Cost (EC). These expenses are explained in the paragraphs below. A comparison of the *actual O&M* expenses for previous years and approved vales and the year-on-year changes are provided in the table below.

Particulars	2020-21	2021-22	2022-23	2023-24	2024-25	2024-25 Approved
Employee Cost (Rs Lakhs)	45.85	53.85	54.54	60.02	60.73	29.61
A&G Expenses (Rs Lakhs)	89.27	92.03	92.05	95.36	129.91	39.37
R&M Expenses (Rs Lakhs)	376.29	404.85	447.65	503.62	551.17	346.28
Total Expenses (Rs Lakhs)	**511.41**	**550.72**	**594.24**	**659.00**	**741.80**	**415.26**
YOY % Change	-23.10%	+7.70%	+7.90%	+10.90%	+12.56%	---

Employee Cost

11. The Employee Cost comprises of the salary and benefits paid to the employees of Technopark directly **involved in the electricity distribution business activity** based on their work, time and effort to distribution business. The gross salary paid to the employees are apportioned based on the same ratio that was taken in last Truing-up petition, now under the consideration of the Hon'ble Commission. The details of employees and apportionment of their salary and benefits are given in the table below.

No	Designation	Posts	Gross Salary (Rs)	Apportion Ratio	Net Salary Expense (Rs)
1	Chief Executive Officer	1	43,59,600	10%	4,35,960
2	Chief Finance Officer	1	24,48,000	20%	4,89,600
3	GM (Projects)	1	22,95,600	25%	5,73,900
4	Manager (Electrical)	1	13,86,489	100%	13,86,489
5	Deputy Manager Finance	1	20,60,100	20%	4,12,002
6	Sr. Executive Finance	1	5,31,429	75%	3,98,572
7	Apprentice Trainee	1	3,60,000	50%	1,80,000
8	Jr. Electrical Engineer	1	4,58,862	100%	4,58,862
9	Supervisors/Meter readers	4	21,63,216	75%	16,22,412
10	Civil Engineer	1	4,58,862	25%	1,14,716
	Total				**60,72,513**

12. The Gross salary given above includes interim relief paid to employees in FY 2023-24, on account of delay in pay revision approval due from the Government. This amount is separately shown in Form-D34.

13. The components of salary expenses at Government scale are shown separately in Form D-3.4 (a). In this Form, the Salary and benefits given to direct employees are shown disbursed based on the pay scale approved by the State Government. However, remuneration to Chief Executive Officer, Chief Financial Officer, Senior Executive Finance, Supervisors and the apprentice are consolidated payments and are shown **'consolidated pay'** in the above form.

14. Accordingly, the employee expense was **Rs.60.73 Lakhs** for FY 2024-25. For the previous two years the audited gross employee cost was Rs.60.02 Lakhs (FY 2023-24) and Rs.54.54 Lakhs (FY 2022-23). The increases in these expenses are only due to yearly increases in the annual salary and dearness allowances. There is only a nominal increase in respect of other allowances such as HRA and CCA. There are now two permanent employee, Deputy Manager (Electrical) and Junior Electrical Engineer who are full time employed and directly managing the business of electricity distribution. All the system maintenance services are carried out through contractors.

Administrative and General Expenses

15. The **Gross A&G Expenses** had been **Rs.129.91 Lakhs** for the year and **includes** electricity duty payable to the Government by the Licensee under Section **3(1)** of the Duty Act 1963 that rate of which was increased to 10% from 6% from 1st April 2024. The increase in A&G expenses including the above duty is **36 %** (which is mainly on account of the increased rate of Sec.3(1) duty). The split-up details are given in the Form D-3.4 (b).

16. The Section **3(1)** Duty paid to the Government the year was **Rs.74.69 Lakhs.** The Hon'ble Commission has been disallowing the Section 3(1) duty payable to the Government which is a genuine expense for the petitioner. This year the **5.5%** retuned calculated based on

the NFA allowed by the Commission is **Rs.90.04 lakhs**. If the Hon'ble Commission disallow the Excise Duty, this petitioner will be left with only Rs.15.35 Lakhs on ROI. The petitioner must make up the disallowances in other heads and **this will badly affect the finances and investment to be made by the petitioner**. The Hon'ble Commission may please reconsider this aspect and allow the Duty as an expense till the Government takes a final decision on the matter. The expenses under various heads under A&G expenses are explained in the following paragraphs.

17. The next highest component of A&G expense is the expenses towards providing **Security Arrangements** which was **Rs.12.93 Lakhs.** There is only a nominal 5% increase than the amount claimed previous year (Rs 12.32 Lakhs) as normally allowed by Hon'ble Commission. It is humbly requested that the Hon'ble Commission may allow the amount of Rs.12.93 lakhs claimed, though the actual cost is much higher than the claimed amount.

18. The **Electricity Charges** for the year was **Rs.14.29 Lakhs** compared to Rs.12.26 Lakhs Previous Period. The office functions of the Electricity Distribution Business and other business activities of the Technopark are carried out from the Head Office Building called "Park Centre". Electricity used for the administration offices are measured with separate meters. Forty Percent (40%) of electricity charges for administrative offices are apportioned to the Distribution business activity as has been approved by Hon'ble Commission in earlier orders. Balance 60% are apportioned to main business activity and that amount will be a sale of power revenue for the distribution business.

19. **Professional Fee and Consultancy charges** paid during the year was **Rs.0.53 Lakh**.

20. The licensee has been hiring a vehicle which is exclusively for the purpose of conducting business of electricity distribution. This expense termed as **Conveyance Expense** amounted to **Rs.6.79 Lakhs** in the year. The amount paid in previous years were Rs.6.55 Lakhs. This cost depends primarily on the cost of fuel and usage of the hired vehicle depending on requirements and therefore does vary year to year.

21. **Bank Charges** paid during the year, **Rs.3.36 Lakhs**. In previous two years, bank charges were Rs.3.67 Lakhs and Rs.1.89 Lakhs respectively. These are the charges paid for Various Bank Guarantees taken from the bank for electricity distribution business purposes and vary year to year depending on the business conditions and requirements and therefore may please be fully allowed.

22. The **Licence Fee** paid for the Distribution business to Hon'ble Commission amounted to **Rs.2.20 Lakhs** versus Rs 1.81 Lakhs paid last year. The **Fee paid for filing Petition** and similar fees paid to the Hon'ble Commission amounted to **Rs.1.05 lakhs** compared to Rs.1.54 Lakhs during the previous year.

23. The **office expenses** (Telephone, Postage etc) during the period were **Rs.36,491** in the year, compared to previous year expense of Rs.48,779. An amount of **Rs.4,720** was spent for

staff training during the year towards training fee on operation and maintenance of electrical systems for preventing equipment failures for the Junior Electrical Engineer. An audit fee amounting to Rs.33,000 was also incurred in FY 2024-25.

24. An amount of Rs.1,83,031 was paid as testing fee for Power Equipment at 110/11kV, 12.5/16MVA power transformer at 110 kV Substation at Technocity campus and an amount of Rs.8,79,162 paid to KSEI towards inspection fee.

Repairs and Maintenance Expenses

25. The operation, maintenance and routine repairs of the distribution system in Technopark license area is carried out by licensed electrical contractors. The contract is awarded after a due transparent process of competitive tendering as per the existing rules and government directions. The tenders for R&M works are invariably invited through the government e-tendering portal. Thus, it is ensured that the contract amount discovered is the lowest possible price. The details of the **R&M** contracts are given in the table below.

R&M contract details

Campus	Contractor	From	To	Contract Value (Rs)
Phase I Kazhakuttam and Phase -IV Kabani	Ideal Datacom Network	01/09/2023	31/08/2026	13,01,51,604
Phase III Kazhakuttam	Geresh Electricals	01/08/2022	31/07/2025	1,24,18,800
Phase III & IV 110 kV SS	Sterling and Wilson	01/01/2022	31/12/2024	1,80,53,836
Phase III & IV 110 kV SS	Sterling and Wilson	01/01/2025	31/12/2027	2,34,89,577
Phase V - Kollam	ABM Electricals	01/11/2022	31/10/2025	1,05,05,712

The total **R&M Costs incurred** during the year were **Rs.551.17 Lakhs** compared to Rs.503.62 Lakhs in previous year**.** The phase wise expenses are shown in Table D-3.4c. There is an overall increase of 9% in this cost compared to previous year, which is inclusive of new distribution area under Phase-IV Campus.

It may be noted that the variation in operational costs for the Phase-II, Phase-III, and Kollam campuses is not significant. However, in the Phase-I campus, a new R&M contract was awarded to M/s Ideal Datacom through a transparent e-tendering process. The revised contract value reflects higher quoted rates and incorporates the impact of salary revision as per Government Order (GO) No. 95/2020/LBR dated 18/12/2020, changes in DA, and annual increments, all of which have contributed to an increase in annual expenditure.

In the case of Technopark Phase-IV (Technocity), a new O&M contract for the 110 kV substation at Phase-III and Phase-IV was awarded to M/s Sterling and Wilson Pvt. Ltd. with effect from January 2025, through a transparent tendering process. The revised contract amount reflects an increase in quoted rates and the salary revision mandated by GO No. 95/2020/LBR dated 18/12/2020. Following the award of this contract, staff previously

deployed at the Phase-III 110 kV substation were reallocated to the newly commissioned Phase-IV 110 kV substation, resulting in a reduction in R&M expenses at Phase-III and a corresponding increase at Phase-IV.

The R&M cost includes the amounts actually paid to R&M contractors, as well as the cost of spares and materials used, purchased, or stocked. It also covers one-time expenses and additional preventive maintenance activities for substation breakers, relays, power transformers, and related equipment expenses incurred during the year.

26. In this regard, it may please be noted that, in the **Tariff Regulations, 2021** that came into effect from 01-April-2022, Hon'ble Commission had adopted the method of **escalating the latest approved trued up O&M expenses** (excluding one-time O&M components) at a rate of **4.84%** to arrive the expenses at the chosen Base Year for all Licensees other than KSEBL. The base year chosen was FY 2021-22 and for Technopark the latest trued up costs were taken for FY 2018-19. Accordingly, Hon'ble Commission fixed the O&M norms and given in the table below in Rs Lakhs.

Item	FY 18-19	FY 21-22	FY 22-23	FY 23-24	FY 24-25	FY 25-26	FY 26-27
	Trued-up	*Projected*	*Norm Fixed for the current control Period*				
Employee Cost	22.55	25.99	27.14	28.35	29.61	30.93	32.31
R&M Cost	263.67	303.84	317.37	331.51	346.28	361.70	377.81
A&G Expenses	29.98	34.55	36.09	37.69	39.37	41.13	42.96
Total	316.20	367.37	380.60	397.55	415.26	433.76	453.08

27. Now, the actual Trued-up valued for FY 21-22 is available which is in substantial variation with the projected values for that year. The R&M norms for the are recalculated based on base year Trued-up values (Rs Lakhs.) and given in the table below. The same escalation rate of 4.454 % has been adopted in computing the new values.

Item	FY 21-22	FY 21-22	FY 22-23	FY 23-24	FY 24-25	FY 25-26	FY 26-27
	Projected	*Trued-up*	*Norms recalculated for the current control Period*				
Employee Cost	25.99	43.03	**43.03**	**44.98**	**47.03**	**49.16**	**51.39**
R&M Cost	303.84	329.87	**329.87**	**344.85**	**360.50**	**376.87**	**393.98**
A&G Expenses	34.55	62.95	**62.95**	**65.81**	**68.80**	**71.92**	**75.18**
Total	367.37	435.85	**435.85**	**455.64**	**476.32**	**497.95**	**520.56**

28. However, *there still exists substantial gap between the real and trued costs* for the base year FY 2021-22. This is because of the disallowances during previous years. This gap had widened on application of escalation factors. The costs recalculated as per the Regulation methodology, that does not reflect reality and it is humbly appealed that Hon'ble Commission may, therefore, consider the fact that the R&M contracts are awarded after a fair and transparent process of on-line tendering and with a fair number of competitive bids for the contract with little scope for reducing these costs. There is no way to compensate for the substantial gap between the actual R&M cost genuinely incurred and that allowed in the ARR. This gap, Hon'ble Commission may please note that this difference in cost does not in any way reflect any defect or inefficiency on the part of the petitioner. The cost incurred is the lowest discovered by transparent bidding. The petitioner is legally bound to pay the contracted amount that was discovered through a transparent bidding process. Hon'ble Commission may please appreciate the fact that, the petitioner has taken earnest effort to control R&M cost by abolishing posts arising when employees retire or resign. ***Since Technopark is incurring only minimal R&M expenses discovered through bidding, Hon'ble Commission may please allow the petitioner to meet the actual expenses in this respect as a one-time correction measure.***

ASSETS, ADDITIONS AND DEPRECIATION

29. **Opening Gross Assets**: Hon'ble Commission had approved asset addition to FY 2019-20 and had directed the petitioner to file clarifications on assets added during FY 2020-21 in the truing up order (OP81/2022 dated 27-07-2023) for that year. This petitioner, had submitted, as directed, the clarifications including all documents related to the asset addition during FY 2020-21 vide a submission dated 27-10-2023. It is understood that the matter is under active consideration of Hon Commission. It is earnestly appealed that Hon'ble Commission may please consider the above submissions and the capital expenditures genuinely incurred and pass appropriate order in respect of the asset additions in FY 2020-21 and thereafter.

30. Hon'ble Commission had determined Technopark depreciable gross fixed assets of Rs.3427.20 Lakhs (that includes an embedded non-depreciable component of Rs.612.06 Lakhs), a non-depreciable asset of Rs 162.51 Lakhs created from grants and Contributions and the accumulated depreciation of Rs.1795.20 Lakhs at the end of FY 2019-20 in the truing-up order (OP No 48/2021 dated 16-02-2022).

31. **Age of Assets:** The Tariff Regulation 2021 notified by Hon Commission mandates depreciation computation based on age of assets. Yearly depreciation of assets below 13 years of age is computed at the rates given in the Regulation foe each group of assets. Whereas the depreciation of Assets above 13 years of age, is computed by dividing the written down value by the remaining age of life excluding salvage value of 10% of original cost.

32. **Assets Capitalised for FY 2024-25:** No major assets have been capitalized during the year.

33. The closing values for GFA and accumulated depreciation are taken for computing the depreciation for FY 2024-25. As per the regulation depreciation for the non-depreciable assets are not computed and claimed. Further, the depreciation for the embedded non-depreciable assets is deducted. Thus, the depreciation, for the balance Assets for the year calculated is **Rs.69.89 Lakhs.** The detailed calculation of GFA, Depreciation and NFA are given in the Format-D-3.5.

INTERESTS, RETURN ON INVESTMENT AND REVENUE REQUIREMENT

34. Technopark has **completely repaid closed all outstanding capital loans** so far taken. There is no additional loan taken during the year. Hence there was no actual loan repaid, or interest paid during the year.

35. **Interest on working Capital:** The interest calculation for working capital requirement as per the regulation is shown in the format D-3.7. The working capital requirement for meeting the O&M expenses and Spares for one month and sales receivables for two months, was **Rs.1,308.77 Lakhs.** The Consumer Security Deposit held in cash was **Rs.2,077.30 Lakhs**. Since the Consumer deposit could cover the working capital requirement, no additional borrowings were required and hence no interest on working capital is claimed. However, **Interest paid on consumer Security Deposit** paid during the year was **Rs.134.16 Lakhs.** The detailed computation of working capital is given in Form D-3.7.

36. **Return on Net-Fixed Assets:** The Net Fixed Assets (created from own funds) at the beginning of the financial year 2023-24 was **Rs.1,549.79 Lakhs**. The return on NFA is calculated is **Rs.85.24** Lakhs at 5.5% rate. The calculation details are given in Format D-3.8.

37. **ARR for FY 2023-24:** The actual aggregate revenue requirement for the year including the Return on Net Fixed Assets calculated as per the regulation is **Rs.7,400.25 Lakhs.** Hon'ble Commission may please note that the expenses incurred by the Petitioner is genuine and the minimum required for running the business. It is appealed that the Hon'ble Commission may please allow the expenses in full and approve the ARR.

REVENUES AND NET GAP

38. **Revenue from Sale of Energy:** The total Revenue from the Sale of Energy to various classes of Customers for the Year was **Rs.7,466.64 Lakhs** compared to Rs.6,683.88 Lakhs received the previous year. The month wise energy sales have been given in the Format D-7.1. The phase wise revenue collected is given in Format D-2.1 in separate sheets for each Phase

and the total sales. A summary of the energy sold, and revenue collected are given in the Table below.

Item	Energy Sold (MU)	Fixed Charge	Energy Charge	Total Revenue*	Av. Realisation
LT Sales	36.87 (46%)	Rs. 8.88 Cr	Rs. 27.27 Cr	Rs. 36.14 Cr (49%)	Rs. 9.80
HT Sales	43.80 (54%)	Rs. 7.41 Cr	Rs. 30.92 Cr	Rs. 38.34 Cr (51%)	Rs. 8.75
Total	**80.67 MU**	**Rs. 16.29 Cr**	**Rs. 50.66 Cr**	**Rs. 74.48 Cr**	**Rs. 9.23**
** Including other charges, incentives, penalty etc*					

39. Non-Tariff Income: The revenue from non-tariff sources was **Rs.158.27 Lakhs**. It was Rs.148.43 Lakhs in previous year. The details of non-tariff income are given in Format D-2.4. About 48% of this income came from Interest on KSEB and Bank deposits., 44% from late payment surcharge, and 2.60% from commission received for collection of Electricity Duty and 5.40% from miscellaneous Receipts. The miscellaneous receipts include connection charges, reconnection charges, temporary connection charges etc.

40. Revenue Gap: Thus, total Income from Tariff and Non-Tariff resources for the year was **Rs.7,624.91 Lakhs.** In comparison, the total income received was **Rs.6,832.31 Lakhs** last year. The total revenue requirement for FY 2024-25 was **Rs.7,400.25 Lakhs.** Therefore, there was a revenue surplus of **Rs.224.66 Lakhs** in the year as per the above truing-up of accounts.

PERFORMANCE

41. Availability of Supply: The petitioner maintains 100% supply availability to the consumers round the clock throughout the year. The petitioner has installed Diesel Generator Sets when the supply from the Utility fails or switched-off for maintenance purposes. The base load and peak load availability have been calculated and shown in the Form D-6.1

42. Distribution Losses: The phase wise and overall distribution losses during the FY 2024-25 is calculated and shown in the Format D-6.2. The overall distribution loss is 4.04 %. The losses are less than the previous year losses. It can be observed that Technopark has taken considerable efforts to minimise distribution losses across all phases. During the power audit conducted by Technopark in August 2025—now carried out in-house by Technopark—it was identified that two meters installed for M/s. Allianz on the 10th and 11th floors of the Niagra Building, Phase III, had an error in the calculation. This resulted in short-billing to the company (From Aug 2024 to June 2025). To determine the actual loss percentage, the units that were not billed have been included in Format D-6.2, while the corresponding billing to the company has been accounted for in the financial year 2025–26.

The loss in all campuses has decreased except in Technopark Phase-I. Upon investigation, the petitioner has identified that the installed transformer capacity in Phase-I has recently been augmented to 40 MVA (two 20-MVA transformers), while the maximum recorded demand remains only around 14 MVA. This significant under-loading of the transformers has resulted in proportionately higher no-load and load losses, thereby increasing the percentage loss figures for the campus.

Furthermore, some of the metering instruments on this campus are in faulty condition, leading to the possibility of inaccurate recording of energy flow. In addition, certain consumers have installed high-rating CTs of low accuracy class, which further affects measurement accuracy.

To address these issues, Technopark has initiated the replacement of such defective and low-accuracy metering equipment with upgraded, CEA-compliant models. A majority of consumers have already replaced their faulty and low-accuracy meters and CTs, while the remaining replacements are currently in progress.

Technopark is consistently undertaking comprehensive loss-reduction measures, including periodic energy audits, detailed power-quality analysis, replacement of faulty/old/damaged/low-accuracy meters, preventive maintenance of distribution system components, and strengthening of metering infrastructure to ensure accuracy, reliability, and continued minimisation of distribution losses.

It may please note that, the losses in the other phases are minimal and there may not be any no room for further major loss reduction. The petitioner taking all efforts to keep the losses minimum. However, it may be noted that in small distributions systems with 1000 consumers, error in a few meters can change the **percentage losses** substantially. Hon'ble Commission may seriously consider this aspect in respect of system losses.

43. **Collection Efficiency:** The petitioner takes best effort to keep all the meters in accurate working order. The defective meters are replaced when the defects are noticed. The collection efficiency in the year was **99.12%**. The detailed calculation is given in Form D-7.3. Hon'ble Commission may please also consider that, (1) there is **no large long-standing arrears** from the consumers and (2) that **surcharge is levied** promptly for delay in payment.

44. The Cash Flow Statement, Profit and Loss Account for the Year and the Balance Sheet along with other forms as per the Regulation are submitted with this petition. It is appealed that the Hon'ble Commission may please consider and approve the genuine expenses incurred by the petitioner and the true income earned from the business and the revenue gap calculated as per the audited accounts.

PRAYER

The petitioner, therefore, earnestly pleaded that, Hon'ble Commission may please consider the above petition showing the actual expenditure and income for the Financial Year 2024-25 and approve the revenue surplus of **Rs.224.66 Lakhs**.

DEPONENT

Vipin Kumar S
Chief Finance Officer,
Park Centre, Technopark Campus,
Thiruvananthapuram – 695 581
